Photo Record (one form per plot) 9/2008

Project:_____ State phase name :_____

State phase ID:_____ **Plot replicate no.**:_____ Collector:_____ Date:_____

Instructions

1. Place photocard at the center of circular plots, at the corner of square or rectangular plots, and at the beginning of single transect plots. Include Photocard in at least one photo per plot.
   - Circular plots: Take photos in cardinal directions from plot center.
   - Square plots: Facing plot center, take photos from plot corners.
   - Single transect plots: From the beginning of the transect tape, take photo facing towards the end.
2. For multi-strata plots, photograph individual strata.
3. Georeference information for the plot will be obtained from the Plot Master.
4. Take action shots and close-up shots as needed to document sampling procedures or other items of interest.
